Pure and Simple

AP12 Automatic Portable Nitrogen Machine

The Niflate⁹⁹ Model AP12 automatic portable nitrogen machine is designed for facilities that want to profit from the rapidly growing nitrogen inflation business. It replaces air with the purest nitrogen available... faster than any other machine available.

- Hands-free operation enables 1 to 4 tires to be purged and inflated automatically by the same technician providing other vehicle services.
- Two purge and inflation cycles are completed in only 7 to 12 minutes.
- It uses tanks of 99.9% pure, dry nitrogen available from local gas distributors.
- It's totally self-contained and can be moved easily for use anywhere... between service bays or to remote locations. It operates for hours on affordable power packs. (Power packs are not included.)
- User-friendly controls make it easy for anyone to set it up for any vehicle in 5 seconds.
- You avoid costly and time consuming installation. It's ready to use when shipped.
- It features an additional nitrogen port to easily connect equipment for closed loop AC pressure tests.
- The AP12 automatic nitrogen machine includes:
 - Heavy-duty 4-wheel cart
 - Standard automatic hands-free controller and industrial regulator designed to inflate typical automobile and light-duty truck tires
 - Four 25ft. coiled reinforced polyurethane hoses
 - Miniflator hand inflator on 25ft. coiled hose for easy top-offs
 - Marketing Kit
